Support for School SEN Departments

We have accumulated many years of experience supporting children with special educational and complex needs and would like to extend this training to support schools. School support is vital for ensuring children feel included and can become confident little learners.

SEN Department Consulting

We can provide support to ensure your SEN department and classrooms are well equipped to meet the needs of the children. Whether you want to re-structure your classrooms, to keep them learner friendly or provide extracurricular activities that will truly benefit the school, get in touch, our consultants are waiting to support you.

Inset Day Training Courses

We can provide workshops and training courses to support children in your classrooms. These can be tailored around inset days and feature the topics that affect your provision the most. Empower your staff today, with our tried and tested techniques and advice.

Assessments and Consultative Support

Already have a well-equipped special educational needs department? Why not set your school above the rest, by enlisting our on call support and assessments? Whether you have children performing above and beyond their age range, or have children who haven't yet overcome key developmental milestones, we can provide assessments. We have a list of assessments that can be provided, contact us to find out more.

You can subscribe to termly support for up to 1 year, 2 years or 3 years. Each term, you will be able to receive a selected number of assessments and a report. Support will also include a written programme with suggestions and one programme update per term.

Resources and Materials for Academic Support

We can provide support in the development and use of resources and materials for your setting. We have spacial awareness designers, illustrators and neurodevelopmental specialist on hand to ensure your classrooms, sensory rooms, therapeutic spaces, playrooms and outdoor spaces, are safe and well-equipped to meet the needs of all children. We also create our very own resources, which means we can tailor resources to include your unique touches.

Assisted Animal Therapy Hire

I'm sure you've heard about the magic animals can bring to people's lives. We have used both small and large animals to support emotions, learning and development. Building Blocks Therapy Centre can provide therapy pets to suit your setting. We can also provide guidance on selecting and purchasing your own therapy pet, as knowing the temperament of these animals is key to ensure both the animals and children are happy. You can trust our trained furry friends to give you the support your setting may need.

Group Work Sessions

Group work sessions are a perfect addition to school life. Have a classroom of children who just aren't getting along? Want to support social skills, or develop the empathy of a small group of children? We can provide small group work sessions to help with this, at times that suit you.
